Holding Farmers' Institutes.

 mers' Institute will be held Wed-
 nesday and Thursday. Fully 10,
 000 farmers are expected to be pre-
 sent from the surrounding counties.
 This will be a very important gath-
 ering to the farmers. These In-
 stitutes have proven of great value to
 the agricultural interests of the
 State and one of the most direct
 means of imparting instructions and
 exchanging views with each other.
 It is to be hoped that these meet-
 ings will be held all over the State
 as they are productive of such prac-
 tical good to the farmer.

A Handsome Gift to the University.

Dr. Thomas F. Wood, of Wil-

 to the Library of the Medical
 school. The list includes all of the
 Medical publications of the United
 States, Canada, and Great Britain,
 worth about \$400.00 annually.
 This is the second gift to the Un-
 iversity from Wilmington within
 two weeks. Mr. D. G. Worth and
 his three sons having recently
 given \$500.00 to remodel the
 Chapel. The work of remodeling
 the Chapel has begun and will soon
 be completed. Chairs have been
 ordered, the aisles are to be carpet-
 ed, and an organ will be used for
 the daily services.

GOOD NEWS, IF TRUE.

Trinity College May Get an Endow-
 ment of Half a Million.
 (Concord Standard.)

It is now being whispered around
 that Trinity College is soon to be
 made the recipient of a splendid en-
 dowment amounting to one-half a
 million dollars.

No one has it straight but it is
 talked secretly in circles that can
 be nothing else but reliable. Some
 have it that northern men will make
 the donation, but others, who are
 more probably correct, have it that
 Col. Washington Duke, Durham's
 millionaire, who has done so much
 for Trinity, will be the principal
 leader in this generous giving. If
 the report proves true, and we hope
 it will, it will put Trinity on an
 equal basis with the best institu-
 tions of the country, and we shall
 expect to see her flourish as no other
 southern college has flourished.

TIMELY WARNING

To all Tourists.

Every one contemplating a visit to
 the mountains should consider how
 to avoid the danger to health of
 finding a sudden change from the
 heated atmosphere of home to the
 currents among the chasms and
 peaks. (2d) How to prepare the body
 to fully enjoy a trip to the "Land of
 the Sky." As Cleveland, Tenn., is a
 medium position between the two
 extremes—the seashore and the moun-
 tains—tourists and pleasure seekers
 may safely go there, the refreshing
 breeze from the sea, the coolness of
 the Blue Ridge towering in the distance,
 in the distance, and drinking the
 celebrated waters, that thoroughly
 eradicate all malarial influences
 and being renovated, return to the
 hills by the magical effect of the
 remarkable and native mineral
 waters, with elastic strength and
 feeling fully equal to the task of
 scaling the mountain peaks. Pre-
 pared not only to stand the
 rapid flight, but also to be
 steady and appreciate the
 magnificent scenery that
 is daily displayed around the
 tourist and picturesque valley
 of the North Carolina. The
 member, however, should
 change from a very warm
 temperature to a cooler one
 depression of spirit, and
 therefore, before leaving
 their homes should take
 at Cleveland, Tenn.,
 any such result.
